

WHY WORRY WHEN A WANT AD IN THE CAPITAL WILL BRING RESULTS

INDUSTRIAL ASSOCIATION STATE MEMBERSHIP

EDMONTON CAPITAL

LAST EDITION Fair and very warm today and Friday  
VOL. V. EDMONTON, THURSDAY, JULY 23, 1914. TWELVE PAGES No. 174

**RUMOR MARITIME STRUCK OIL CAUSE OF STOCK FLURRY**  
Persistent Rumor in Circulation of Strike 22 Miles Southeast.

**COMPANY OFFICIALS MAKE NO STATEMENT**  
Herron-Elder Will Not Go Into Merger Account Minority Hostility.

Has the Maritime Petroleum Company limited, struck a flow of oil at its well now being drilled southeast of Leduc, about 22 miles from the city as the crowd flies and 28 miles by road? This rumor went round the streets of Edmonton last night and this morning, and was neither confirmed or denied at the head offices of the company, in 810, Victoria block.

The Maritime well is known to be down over 400 feet, and is known to have encountered very favorable indications some time ago. Last night a report is said to have reached the city by a man who was in the district where the well is located. Yesterday morning, but was not connected in any way with the company.

The first statement available is that it is stated that a very heavy flow of gas was struck and a considerable flow of oil. The officials of the company at the head office this morning, however, declared that he had nothing to give out in the way of official statement to the public. He would not say whether or not a strike had been made.

The Maritime owns outright all the oil and natural gas rights on its holding southeast of Leduc. With the exception of the well near the southeastern city limits being put up by Chamberlain Bros and Campbell, the Maritime's well is the closest to the city of all those now drilling. Edmonton men are at the head of the company and the well is being drilled. Last night and this morning there was considerable activity in it.

From Calgary comes the news that the city is considering a proposition to bring the gas from the Dingman well into Calgary, and that the public utility. It is stated that 2,000,000 cubic feet of gas a day issues from that one well.

W. S. Herron announces that the Herron-Elder company will not go into the amalgamation which was contemplated by that company and several others in the Calgary-Oklahoma field and which was considered as good as put through. Mr. Herron states that the merger is off as far as that company is concerned, on account of the antagonism between the bit and sandstone of the stockholders.

He declares that they had enough trouble in the oil field, and that they had no time to put through the deal, but that it will not now go through.

**SUSPECT OF ATTEMPT ON LIFE OF THE CZAR "DIES SUDDENLY"**  
St. Petersburg, July 23.—The man arrested in an Odessa hotel recently, suspected of an attempt to assassinate the czar, "died suddenly" in prison at Odessa yesterday, it is announced from here.

The man, well dressed and of good features, put up at an Odessa hotel. He and his family were about to pass through the city, the secret police corps questioned every stranger.

He had a guest, whose name was not given, but who was a man of good appearance. The police were informed by a man that the visitor had confined a package to the hotel steward to be put in the refrigerator as it contained "perishable food."

The package contained two tremendously destructive bombs.

**EDMONTON DEBENTURES ON OFFICIAL LONDON STOCK EXCHANGE LIST**  
London, July 23.—Application has been made to the London stock exchange to appoint a setting day and time for the Greater Winnipeg Water Board, 4 1/2 per cent. issue.

The recent issues are now quoted, the official list. City of Edmonton Sterling debentures, City of North Vancouver debentures.

**ALL THE COUNTESS ARE WILLING TO JOIN THE ROYAL PARTY**  
Reception at Government House, Monday Afternoon, is for People of City—Present Addresses at Parliament Buildings—Plans For Auto Ride Around City; Car Owners Will Choose Their Own Routes.

Unless there was some announcement to the contrary, the reading of the provincial and civil addresses to the Duke and Duchess of Connaught and Princess Patricia will take place at the Parliament buildings at 10-15 on Monday morning. It is requested that as many members of the legislature, aldermen and commissioners as possible attend, the provincial representatives taking up a position on one side of the steps and the city representatives on the other.

Capl. A. C. Gillespie, secretary to Lt. Gov. Bullock, announces that the reception at Government House on Monday afternoon, from 8 to 4 is open to the public and anybody who would like to meet their royal highnesses is invited to attend.

The vice-regal party arrive at the G. T. P. station early in the morning. At 10 o'clock a call will be made upon their royal highnesses at the train by Lt. Gov. Bullock, Premier Sifton and Mayor McNamara. The party will then proceed to the Parliament buildings where the addresses of welcome will be read.

The ceremony will be brief and before 11 o'clock it is expected that the party will be ready for an auto drive around the city. This will be taken part in by the provincial and city representatives as well as the distinguished visitors. In order to avoid the dust of a procession of cars it is suggested that each car should choose its own route and the city individually, returning to Government House, where luncheon is to be served before 1 o'clock.

**Motor Ride in City**  
For the motor ride car No. 1, provided by the premier will convey the governor-general, the lieutenant-governor, the premier, the mayor, and the governor-general's secretary. Ten other cars will be provided as follows: Car No. 2, containing the duke and duchess, Sifton, Lady-in-waiting to the duchess, Mrs. McNamara, lady-in-waiting to the princess. The other six members of the party will be in cars provided by the cabinet ministers. It is suggested that the remaining members of the party who are army captains should be placed one in each car with the cabinet ministers, aldermen or commissioners.

After the reception in the afternoon the party will motor to St. Albert and Fort Saskatchewan and will return to Government House in the evening.

**Guests for Dinner**  
The following guests will be invited to the dinner for their royal highnesses at Government House on Monday night: Archbishop Legal, Archbishop Gray, Senator Loughheed, Mrs. Loughheed, Hon. Frank Oliver, Mrs. Oliver, Premier Sifton, Mrs. Sifton, Hon. C. B. Mitchell, Mrs. Mitchell, Hon. C. W. Cross, Mrs. Cross, Hon. Charles Stewart, Mrs. Stewart, Hon. J. R. Boyle, Mrs. Boyle, Hon. Wilfrid Garfield, Mrs. Garfield, Hon. A. J. McLean, Col. A. E. Cruikshank, Mrs. Cruikshank, the worshipful mayor of Edmonton, Mrs. McNamara, Mrs. Dennis, Captain A. C. Gillespie.

**RAPID PROGRESS IN NEW BEING MADE IN DRILLING WORK**  
Drill Down 700 Feet and It Is Hoped to Make 40 Feet Daily Hereafter—James Brodie, City Expert, Keeping Very Complete Log—Strong Flow of Gas.

After a series of difficulties covering nearly all the tribulations in the calendar, the digging at the industrial association's well, six miles north of Leduc, has recently been very good and rapid progress is looked for from this time forward. President Magrath made reference to it at his luncheon.

Last evening the drill was down 700 feet, working in the soft, heavy shale. At the present time there are three strings of casing in the well, the outside casing, 18 inches, being 10 feet; the second string, 13 inches, 403 feet; and the inside string, 8 1/2 feet, with about 10 feet uncased at the bottom of the well.

The rock in which the drill is working at the present time stands up pretty well, although inclined to cave a little. Early in the week the shoe on the 10-inch string became bent and it was necessary to draw the well and to substitute a new shoe. During the process the well caved and the 10-inch string was bent and it was necessary to draw the well and to substitute a new shoe. At present they are using a 16-foot string, giving a total weight to the bit and string of 1,600 pounds, which on a six-foot stroke strikes a blow that cuts the soft shale like cheese. The drillers hope to make less than 10 feet a day from this time forward and the next month should get the well down pretty close to the bottom. The experts believe a permanent and voluminous gas flow will be encountered. Everybody at the well seems absolutely convinced from the indications already met with that the well is in a gas territory and that they will get gas in large quantities, although there is also an opinion that they might have done better to go a few miles to the west.

The gas flow, which was struck at about 450 feet, has persisted right down to the present depth and is flowing to the surface, bubbling up through more than 400 feet of water with a noise which is quite audible for some distance from the derrick. When the flame caused by the flow from the 13-inch string shot more than 20 feet high, to the top of the derrick-house. When the 10-inch string is logged the drillers intend to cap the gas between the 13-inch and the 10-inch strings and use the foot to first break the gas, and then flow being already available for this purpose.

The drilling at the present time is under the supervision of John McDonald, with Bert Simmons, who came from over 200 feet, showing the character of the strata. G. W. Green, who was in charge up until a few days ago, has gone to Southern Alberta to take on the character of another rig for the International Supply company, which has the drilling at the present time.

The drilling crew has a very comfortable camp at the site with a half dozen tents set out in a pretty grove in picturesque surroundings, making a very nice scene for visitors.

The 10-inch string is being drilled by the department, who is representing the city at the well. It is keeping what will probably be the best record of any well ever drilled in the province of Alberta. In the first 400 feet or so, there were of great value as the drilling was entirely through surface wash, but having got out of that into the rock strata, the value of the well is incalculable value to drillers who later intend to sink wells in the eastern field.

**Hospital Burns Burn**  
Brandon, July 23.—Starting from an incendiary origin, fire destroyed no less than seven of the big barns yesterday afternoon, and caused a total loss of between \$50,000 and \$75,000.

**Acting Crown Prosecutor**  
Will Mustard, of Mustard and Day, has been appointed acting crown prosecutor during the absence of E. B. Cogswell, crown prosecutor, in the north.

**EDMONTON BANDS WILL SUPPLY ALL MUSIC FOR FAIR**  
Six Local Organizations to Dispense Harmony and Play for Tattoos.

**ARE NOW PERFECTING FOR NATIONAL TUNES**  
Entry List is So Large That Additional Classes Have Been Enumerated.

The Edmonton Exhibition association has arranged new classes for the fair of 1914, and, though 5,000 prizes are now in the hands of prospective exhibitors, the association, with the aid of the press, anticipates no difficulty in giving these classes due prominence. Four prizes remain to be made entry, and any having previously made their entries can add to them in case they desire to enter in these classes.

It was thought when the prize list went to the printers, that it was complete in covering all classes of exhibits likely to be introduced at the 1914 fair. Time, however, has proved that a few classes were overlooked.

In response to numerous requests among these lines, the association has decided to enter prize in additional classes. These cover a wide range of exhibits, from knitted lace to jumping classes for ponies.

Following is the list of the newly established classes, together with first, second, third and fourth prize offerings:

25A—Cheese, factory, cheddar, 115, \$10, 15, 25.  
26A—Bakery, work, 12, 15, 18, 25.  
25B—Honey strained, 12, 15.  
25C—Honey in comb, 12, 15.  
26A—Lace knitted, 15, 25.  
10A—Vegetable marrow, green, 12, 15, 25.  
7A—Jumping class for ponies, 14, 25 and under, 125, 115, 110, 15.

Six bands will provide music for the exhibition—not to mention the numerous and miscellaneous music making from the booths on the midway, and the stentorian announcements issuing from the lips of the vendors of peanuts and other delicacies.

The 1914 Pullman band, the Chiswick band, the Strathcona band, the Moose band, the Piper's band, and last but not least, the Edmonton Newsboys' band—50 strong—all will be there.

The association has found that it has no need to go beyond the city to arrange its musical program, with such splendid talent at home.

All these bands will participate in the military tattoo which constitutes the closing number of each evening's program, and are now perfecting themselves in the playing of the national music of the armies represented.

In anticipation of the near approach of July 27, the day on which the entries close, the exhibition staff is kept busy to the point of distraction taking in entries. Any one who has not yet made entry, should attend to the matter at the earliest possible moment, and thus relieve the congestion which is sure to come with the final day for receiving entries.

**MUSLIM INSRGENTS THREATEN TO DESTROY CAPITAL OF ALBANIA**  
Durazzo, July 23.—A note threatening to destroy the capital of Albania has been received here. The note is addressed to the representatives of the European powers here.

The insurgents added that if the warships of the European powers entered the harbor of the city, they would destroy the city.

The note was signed by Prince William, the only way to avert civil war, they said.

**Arrested at Montreal**  
Montreal, July 23.—Albert Leclair, alleged to be the slayer of Odina Gaudin, a French Canadian, who was found about a month ago with four bullets in his body, and who died, was arrested in a street restaurant here yesterday by Detective Pierre Trudelle, of Quebec. Leclair was taken to Quebec this evening.

**STREET RAILWAY EMPLOYEES SUBMIT THEIR CONTENTION**  
Maintain That Retroactive Clause Has Not Been Observed by Chalmers.

**INSIST ON PROMOTIONS FROM COMMON RANKS**  
Commissioner Contends That He is Sole Judge of Required Ability.

In an effort to throw some light on the difference existing between the street railway men and the street railway board, the Edmonton Journal has published the following article. It is claimed by the street car men that during the regime of Hedden and Woodworth, the street railway board, according to the interpretation of the street car men, must be observed even to the extent of appointments made months prior to the signing.

On this ground it is contended that the board is not entitled to hold their positions, not having been appointed from the ranks, and that they must give way to the street car men, who are now living up to the city and that the present incumbents of the positions of board members are entitled to remain in office by reason of ability. Mr. Chalmers maintains that he is the sole judge of ability, and that the board is not entitled to hold their positions.

The communication from Mr. Chalmers to the Editor of The Capital:

"Will you kindly grant me space in your paper to explain to the public one or two points in connection with the controversy between the street railway men and the board. I am sure that the public will be interested in the matter."

"First of all as to the date on which the present agreement became effective."

"I quote from the original document of the agreement entered into between the board and the street railway men on the 17th day of February, 1914, between the Edmonton Street Railway of the first part and the Edmonton Association of Street Railway Employees, No. 559, of the second part, witnesses that on and after the 1st day of March, 1914, the following wage schedule and working arrangements shall take effect and be binding upon the parties hereto."

"You will notice that in accordance with this clause, the provisions of the agreement were made retroactive to the 1st day of March, 1914. The two inspectors whose permanent appointments our association is protesting were given their jobs during the regime of Messrs. Hedden and Woodworth after the date on which the agreement, by virtue of its retroactive clause, became operative. Besides this it was distinctly understood at the time that the agreement was made that the board, whose appointments were to be temporary."

"Now the commissioner of operation, who is the first of the officials acting for the city to sign the agreement, and he is the one who seeks retroactivity to destroy the wage schedule and equitable provisions."

"The retroactive feature of this agreement is not unusual."

"Very recently in one of the large American cities, the street railway men secured a retroactive clause in a dispute over a retroactive clause in their agreement, receiving among other things some \$25,000 back pay."

"Then there is the question of priority. The clause in the agreement reads: 'Each man and his children or shall be entitled to hold his position according to his seniority in the company, and that preference of rank shall always belong to the oldest man in the company service except in case of emergency when the board shall have the right to hold such ranks.'"

"When vacancies arise in the list of inspectors, or when traffic conditions"

**POOR FINANCING CAUSE OF HEAVY LOSS SAYS MAYOR**  
WANTS TO KNOW WHY PRICE IS HELD SECRET

**Suggests That in Future School Debentures Be Sold With City's Issue.**

In the opinion of Mayor McNamara poor financing has caused a loss of approximately \$25,000 to the school board by reason of the manner in which the school bonds were floated, and in a statement which the city's chief executive issued this morning he does not hesitate to criticize the action of the school board.

The communication of Mayor McNamara follows:

"Regarding articles that have appeared in the Edmonton Journal and Edmonton Bulletin recently, criticizing the mayor of his recent statements, the mayor this morning gave out the following interview:

"The facts in connection with the school board bonds are these: On Feb. 14, 1914, I wrote to the school board the following letter:

"Would you be good enough to advise me what your expenditure on capital account will be for the current year?"

"Having in mind the trouble of last year, I think your board will agree with me that it is advisable that the school board should go on the market simultaneously."

"Awaiting the favor of an early reply."

"It will be seen in this letter that I wished to anticipate any trouble that might arise this year, similar to the disastrous bungling of last year, when the school board disposed of some one and a quarter million dollars of debentures, \$215,000 being sold at 90, and \$1,035,000 at 87, while the city was at the time selling its bonds at 95 for their bonds, an average difference of some 7 1/2 points, or a loss of \$35,500, to the school board."

"Originally the school board took no action on my invitation to them to co-operate in the sale of our bonds, and this year we find them once more on the market with their bonds, while the city of Edmonton is calling for bids for its issue of four million dollars."

"The school board were being off-hand and did not lower their price more than what the city was willing to sell, and that certainly had a damaging influence on the sale of the bonds. Neither last year or this year has the school board made public the offers received or offers accepted for their debentures. There have been no annual reports of the school board published for the years 1912 or 1913, except that for 1912, there was a statement distributed at an election meeting held in the McDougall Methodist church early in December, 1912, in which the following was stated on same, at the expense of Mr. Barnes:

"The recent newspaper reports of what Mr. Barnes said at a board meeting are correct, then the school board not only sacrificed their debentures at a ruinous rate, but also tied up the following year's issue to the same firm who purchased the 1912 issue."

"Mr. Barnes is a careful no-doubter at which price the debentures were sold. If the board were satisfied with the price obtained, why don't they publish reports giving the price, or why was it not mentioned in the minutes of the chairman of the finance committee of the school board? It is understood this year's bonds realized less than what the city paid for its bonds. It was quoted the city by Lloyds bank was 84. It will thus be seen the school board has sold at three points less than what the city paid for its bonds, this loss being on this year's issue of \$150,000 three points, or \$22,500."

"Things have come to a pretty pass, when, year after year, the school board is allowed to finance in this manner at a loss to itself, and also the very serious detriment to the city. This state of affairs would not be tolerated in any other city in Canada. Toronto has long ago taken away the power of the school board to issue separate bonds for this purpose. Winnipeg also has done the same, and it is high time that Edmonton should follow suit."

"My suggestion would be that the school board, after having secured the permission of the city fathers for capital expenditure, should request the city to dispose of its bonds simultaneously with the city's issue. In this way there would be no chaffing on interest, the bonds would be sold simultaneously and at the same price."

"W. J. McNAMARA."

ANOTHER "DEAL" IN  
BORDEN'S OWN PROVINCE.

The story of the site for a public building at Canning, Nova Scotia, is a simple little tale but it is not without interest to the people of the country. It is pleasant, too, no doubt, in the ears of Mr. N. W. Eaton, since it tells of a Borden Government plan to pay him \$2,000 for something which the country could obtain for nothing.

When a site for a public building was sought in Canning, a suitable piece of ground was offered the Government for nothing by Sir Frederick Borden, who is a citizen of the town. But Mr. Eaton had another piece of property which he wished to sell, and Mr. Eaton was a staunch friend of the premier and had carried the Conservative banner unsuccessfully in 1908. As a faithful Conservative, Mr. Eaton had to be "looked after" by the Conservative government which gives more attention to the desires of its friends than it does to the public interest. The result was that the Government decided to purchase the Eaton land for \$2,000 though the other site was favored by many of the people of Canning, and would have cost the country nothing. The Government plans on giving Mr. Eaton the two thousand while the country is to foot the unnecessary bill.

It has been found, however, that another strip of land will have to be added to the Eaton property in order to obtain to the people of the country. It is pleasant, too, no doubt, in a site of sufficient size. For this smaller bit of ground the Government offered to pay \$1,400—a sum which its owners refused to accept on the score that it was excessive and that they could not honorably take such a price for land worth far less than that. As a matter of fact, the Government's reason for offering two or three times what the land was worth lay, of course, in its desire to make it appear that Mr. Eaton's property was worth \$2,000 though it has been stated that the real value of this lot is not more than \$250. How much will finally be paid for the additional property remains to be seen, for the price is now to be determined by the Exchequer Court.

But no matter what the Exchequer Court may decide, the Government is taking good care of its friend, Mr. Eaton. The country is to pay \$2,000, plus the amount named by the court for the second piece of ground, for a building site when a satisfactory site could have been obtained free of cost to the people if the Premier and his colleagues had not been so eager to serve the interests of a party favorite. The amount involved is not very large, it is true, but the story is illuminating and damaging as supplying one more bit of evidence of the manner in which the public interest is subordinated to party ends under the Premier who talked so glibly of economy and high ideals in political action—when he was in Opposition.

## EATING THEIR WORDS

A few years ago, Liberal incompetence and mal-administration in the handling of public contracts was a favorite theme with opponents of the Laurier cabinet. There were insinuations of rake-offs, graft and middlemen. There were assertions that contracts were given to favorites and that the interests of the country suffered in consequence. It was charged that men and firms were given contracts which they were not competent to handle. That was the Conservative story in the years preceding 1911.

There is another story now. It is told by no less an authority than a member of the Borden government.

"When we took office," declared Hon. Sam Hughes, in speaking of work under his department, "we became virtuous and tried to change the contractors, but we met with loss and delay and all sorts of trouble on the part of contractors and failure on the part of men who, in the course of years, would probably have become as expert as the employees of the old contractors. The old men have been doing this kind of work for years and can do it much more satisfactorily and, therefore, we are still giving them contracts."

The government has found that the best work was done by the contractors who were employed by the former administration. It cannot have found that there were improper acts on the part of these contractors in other years unless it is to be assumed that Premier Borden and his colleagues are prepared to trust the business of the country in the hands of men whom they know to have been guilty of wrong-doing. The fact is plain—and it is emphasized by the admission of Col. Hughes—that under Liberal rule contracts for public business were awarded only to competent men or firms and that the country received a dollar's worth of value for every dollar paid. Slander cries were used by Mr. Borden and his allies in gaining power. The government's acts expose the slander now.

## THE POPPY INCANTATION

OF THE NEWS-TELEGRAM.

The Calgary News-Telegram mis out with a weird story to the effect that there are seismic disturbances within the liberal party over who is to succeed to the premiership of Alberta. As the Telegram sees it, Hon. A. L. Sifton is poised for the jump from the bridge which would leave the ship of state captainless, and the minister of public works and the attorney-general are represented as standing ready to fly at each other in strangle holds for supremacy.

As a soothingly pleasant incantation for the conservative mind the dream could not be improved upon even with the aid of the poppy and the pipe. But as a statement intended for acceptance as a fact it is certainly not flattering in the estimate which the Telegram places upon the perspicacity of its readers.

The Telegram will find very few who will be willing to believe that Premier Sifton has any intention of resigning or to believe that there is any lack of harmony among his colleagues in the cabinet. In fact, the thing which worries the conservative mind so much is the knowledge that the Alberta government is getting along altogether too well to afford any hope that there is any chance for the conservatives either now or in the future.

## CORRESPONDENCE

The publishers of the Edmonton Capital feel it necessary to explain that they take no responsibility for the views in letters sent to the editor. Letters will not be printed unless name and address are given for publication.

## FLETCHER, THE VAGRANT, LOCAL CRIMINOLOGY STUDY

To the Editor of the Capital—

During the present financial depression, the ruling authorities of this country are making an exaggerated and exceedingly trivial study of the Vagrancy Act to forcibly remove from the streets of the various cities, individuals whom they claim to be potential criminals, because they do not possess any visible means of subsistence. One of the convictions which has roused the bitterest denunciation of our local police, was the sentence passed upon Rowan, the secretary of the local branch of the Industrial Workers of the World. The obvious injustice of Rowan's sentence did not, however, arouse my anger to such a high pitch, as the one given out by the local magistrate to Fletcher, the vagrant. In the case of Rowan, as I pointed out to several of his confederates, very policy of deterring by direct actions against the governing classes, really invited reprisals upon the part of those powers who were not prepared to yield the question of justice being small consideration.

Truth and justice are but manifestations of the primal truth which in human race is progressing. The justice of the capitalist class during the present epoch, is that that adapted to terrorize the proletariat into submission. The unjust brutal sentence of six months imprisonment passed upon Rowan, bears, stamped indelibly upon it, the frank and candid intentions of the ruling classes to carry out their system of intimidation. That they are destined to failure is shown by the ever increasing solidarity of the workers, with the emphasized intention of resisting to the utmost these injuries to their class by the aid of a thinly veiled pretence of protecting society with the help of justice.

One day last week I spent an hour or two in the local police court, and thus gained a little insight into the manner in which justice is meted out in Edmonton. The case which roused my indignation to the point of visible explosion, was that of a poor fellow, looking specimen of humanity who answered to the charge of being a vagrant. If I gathered a faint recollection, he had only been out of prison about a week, having previously served a month's imprisonment for a like offence. When he was called upon to answer the charge, I had made a critical analysis of this puny underling specimen of the human race, as he sat in the dock and I wondered what crime he had to answer for. This turn finally arrived and he stood up to answer the charge made against him by the magistrate still remaining upon the plane of consciousness without any visible means of subsistence. Four men! I had diagnosed him as a vagrant, and he stood up to answer the charge made against him by the magistrate still remaining upon the plane of consciousness without any visible means of subsistence.

Four men! I had diagnosed him as a vagrant, and he stood up to answer the charge made against him by the magistrate still remaining upon the plane of consciousness without any visible means of subsistence. Four men! I had diagnosed him as a vagrant, and he stood up to answer the charge made against him by the magistrate still remaining upon the plane of consciousness without any visible means of subsistence. Four men! I had diagnosed him as a vagrant, and he stood up to answer the charge made against him by the magistrate still remaining upon the plane of consciousness without any visible means of subsistence.

## LUMBER JACKS HIKE TO WORK IN CAMPS OF OTTAWA VALLEY

Ottawa, July 23.—The annual rush to the lumber camps has begun and by August 15, lumber firms in Ottawa and district will have working in the timber lands adjacent to the Du Moulin, Elmer, Chippewa, and other rivers of the Ottawa valley, between 20,000 and 40,000 men.

In less than two months the demand for unskilled labor will be in excess of the supply, say local lumbermen and responsible employment agents.

## JUMPS OVERBOARD FOR 3 CENTS AND DROWNS

Toledo, Ohio, July 22.—Baron Harris, aged twenty-six, was seen in the Maumee River today when he leaped from a boat and was unable to swim ashore.

"I'll jump overboard for a nickel!" he said.

"I only 3 cents," one of his companions answered.

"Well, I'll jump over for that," Harris replied and jumped into the river.

After swimming a few strokes he called for help. He sank before his companions could reach him.

of refinement. It confers on mental activity the higher control, the power to direct wisely and the force of inhibition or self-control. When this area is diseased, as in general paralysis, or in mild degrees of alcoholism, wisdom and control disappear. So we cannot become wise which includes the higher moral qualities, as self-control unless we exercise all our faculties. This is one reason why the uneducated poor are at such a disadvantage and after becoming criminals.

Who can blame them when they have no sense of mental improvement? Dr. Bolton says in Brain (1903) that the great anterior association center is unduly involved in all grades of primary mental deficiency, and undergoes a partial paroxysm as dementia occurs.

Would that these words could be remembered thoughtfully by every criminal lawyer and judge. It is on this knowledge of crime that to send a man to prison for horse-stealing at the age of 34, as senile dementia may be in progress, who on the other hand a very heavy percentage of our goal-birds are partial agents with undeveloped brain cortex and yet the state insists on hunting them down. Whenever we are consulted by the poorer classes we must feel struck with their helplessness and inability to focus their attention or arrive at wise decisions. It is not right to despise or neglect them. On the contrary, says Dr. Albert Wilson in his text book on Education and Crime, they require our patient sympathy; to assist in putting some of their prefrontal neurons into activity. I commend this short study in the science of criminology to the individual who has been appointed to preside over the fate of the city of Edmonton's unfortunate, as at present so large a class, visible means of subsistence being denied to hundreds of us.

## SEASON HAS BEEN SEVERE TEST OF FARMING METHODS

Some of the Farmers in Dry Belt of Southern Alberta to Reap Good Crops.

## PROSPECTS NORTH OF CALGARY NEVER BETTER

Everything Has Depended on Conservation of Moisture in Dryer Regions.

"Prospects were never better for a splendid crop in Alberta, so far as the country north of Calgary is concerned," declared J. D. Smith, acting head of the provincial seed and weed branch today. Mr. Smith stated that while timothy was light, owing to the dry spring, the cereal crops in the northern and central Alberta were the best in years at this time of the year. The crops are heavy and will ripen early if the weather continues favorable. Cutting of wheat will be fairly general by the second week in August, according to present indications.

The report for the southern part of the province is not so favorable. South of the International boundary, has been seriously affected by drought and many farmers will not be able to cut enough to feed their stock. One of the features of the situation is that even in some of the worst districts there are some farmers who have splendid crops. The present year has been a very severe test of farming methods and of the ability of farmers in the south of Alberta who are farming according to up-to-date dry farming methods will reap anything like a crop this year.

One of the exceptions to the general rule of poor crops in the south is Thomas Judson, in the Taber district, who has 300 acres of as fine a crop as one could wish to see right in the heart of the dry belt. Mr. Judson is an up-to-date farmer and is being assisted by his son, who is a graduate of the Manitoba agricultural college. Mr. Judson has 600 acres of wheat, 25 acres of alfalfa and a nice crop of oats and barley. A number of other successful farmers can tell a similar story of success where others have failed this year.

These men say the secret of their success is deep ploughing, deep seeding and keeping the land well cultivated, thus preventing the waste of soil moisture, by weeds or by excessive evaporation.

## CHAPTER XIX. (Continued)

Umbalsh remained in the palace, burning with the fires of murder. Messenger after messenger came to report that the fugitives were still at large. Umbalsh did not believe that his enemies would be foolishly enough to seek refuge in the house of Hamalsh. The four roads leading out of the city were watched, the colonel's bungalow, and even the ruins of Bruce's camp. They were still in the city; but where? A king's loss and another; and Umbalsh, alarmed, his heart filled with Dutch courage.

Ramshad made his preparations in case the hunters entered the house. He opened a secret door which led into a large gallery, dim and musty but still beautiful. Ancient armor covered the walls—armor of the days when there existed in Delhi a peacock throne; armor inlaid with gold and silver and turquoise; and there were jeweled embroidered swords and daggers, a blazing helmet which one of Pandita's ancestors had worn when the Great Khan came thundering down from China.

"Here," said Hamalsh to the colonel, "you will be safe. They might search for days without learning this room existed. There will be no need to re-enter the house, though enough when my servant gives warning."

They fled out of the gallery solemnly. And Umbalsh went out into the garden, followed by Bruce.

"You know," said Kathlyn, "the slight of this armor, old and still magnificent, seemed to awaken the recollection of another age to me?"

He went to take her in his arms, but he waited for her to continue the thought.

"I wonder if in the dim past I was not an Amazon?"

"I wonder, too," he said.

"It is marvelous how this horrid country has brought out in me the things, emotions and the like, that I never dreamed existed. Tonight, I feel like a pagan. I want to put on one of those amazing chain armors, take a sword and go forth."

She stretched out her arms and suddenly he caught them and drew them to him.

"Kathlyn, we may or may not get out of this alive. I have my doubts. The great horror of this land, there is what I despise most, and about taking whatever side promises the most loath; and they will be everywhere like poisonous flies. God knows I ought not to speak, to say anything, but my heart is too full this night."

(To be continued tomorrow.)

## The Adventures of Kathlyn

By Harold MacGrath.

SYNOPSIS OF PREVIOUS CHAPTERS.

Kathlyn Hare, believing her father, Col. Hare, is dead, has summoned her, leaving her home in California to go to him in Alaska. Umbalsh, pretending to be the throne of that pretence, has imprisoned her, named by the late king as his second wife. Kathlyn is informed by Umbalsh that her father is dead and that she is the queen. Alas, Kathlyn is arranged, the central figure of which is Kathlyn Hare, who is to be crowned. When the crown is placed upon her head, Umbalsh announces that she is to be married to him forthwith. Her refusal infuriates him, but as Kathlyn's beauty and spirit have made a strong appeal to the people, he is forced to the point of the time when a priest announces that no woman may rule unless she is married. The young queen is not content with the laws of the state she will be given seven days to decide.

When Kathlyn refuses, at the expiration of the week of grace, her refusal to marry is the cause of a great scandal. The supreme tribunal that she is to undergo the ordeal of the trial. If she survives she is to be permitted to rule without hindrance.

Through the pluck and resourcefulness of John Bruce, an American, and fellow passenger on the boat which brought Kathlyn to Alaska, and who has come to her aid, she escapes from the clutches of the two tyrants. With Bruce she flies from the city. The elephant which carried her becomes frightened and runs away, leaving her from Bruce and the rest of the party.

After a ride filled with peril she takes refuge in a ruined temple. The holy men and villagers, believing her to be a priestess, rescue her from the tomb, allow her to bathe, and she escapes from the sacred fire, but Kathlyn's heart is also the home of a great love. She is rescued from it with the savage bent in pursuit of the International boundary. She is rescued from it with the hands of a band of Alaskan Indians, who take her to the public mart. She is sold to Umbalsh, who takes her to his palace, and she is thrown into the dungeon with her father.

Bruce and his friends effect the release of Kathlyn and the colonel. Umbalsh's attempt to threaten them is unsuccessful, and the fugitives are again sheltered in the palace of Raja Khan. Kathlyn is told of a sacred white elephant, the king's prized possession, is stolen. Supplied with canoes and servants by the hostile prince, the party endeavours to reach the coast, but are overpowered by a band of brigands, and the discoverers of the island being delivered to Umbalsh. Kathlyn and Bruce escape from their captors and return to Alaska, where Kathlyn learns that her father is still nominally king, but in reality a prisoner. It is arranged to find a way to free him. The dukes come from near and far. Kathlyn hears of the duke in disguise to be able to see her father and she is determined to go to him. She is rescued from the palace in disguise to be able to see her father and she is determined to go to him. She is rescued from the palace in disguise to be able to see her father and she is determined to go to him.

## MAZE OF GRAFT IS REVEALED AT NEW BRUNSWICK PROBE

Check Paid to A. R. Gould  
Bears Endorsement of J. N.  
W. Winslow Only.

### PROVINCIAL SECRETARY IS FAVORED SOLICITOR

Hon. H. F. McLeod, Now M.P.,  
Gets \$4,739.32 for His  
"Legal Services."

Re John, N.B., July 23.—Ernest L. Kelly, the partner of J. S. Scott, who on Tuesday told of a payment of \$1,500 to Hon. H. F. McLeod for his influence in securing a Valley Railway sub-contract, was on the stand at the session of the royal commission conducting the Valley railway inquiry yesterday.

The sum of \$2,000 was paid to A. R. Gould for "special services," but the check which was issued in his name bore the endorsement only of J. N. W. Winslow. During the forenoon other payments of \$1,000, \$100 and \$500, apparently for services, searching right-of-way titles, were shown to have been made to Mr. Winslow. The endorsements on the \$2,000 check, however, showed that it fell into the hands of Condy and McDonald, railway contractors, before it was cashed. Mr. Winslow also received \$1,500 in payment for land in Woodstock, said to have been purchased as the site for a station. The witness said that no preparations had been made for using the land for this purpose, but he said that he did not know that the land is now held in the name of Mr. Winslow and Ross Thompson, the managing director of the construction company.

**Is Government Employee.**  
Mr. Winslow is the postmaster at Woodstock, who was appointed to that office by the present dominion government very shortly after it took office, displacing an appointee of the previous administration.

A firm of Ottawa lawyers received \$1,250 for services in connection with the subsidies, but what these services were has not been explained.

Among the lawyers upon whom the company bestowed its patronage, Hon. H. F. McLeod, then provincial secretary, was especially favored by the railway company. Payments to Mr. McLeod for legal services, so-called, reached a total of \$4,739.32.

Mr. Kelly told of a conversation with Mr. McLeod which substantiated the testimony of Mr. Scott. He knew nothing of the actual payment.

Ralph D. Hoban, accountant of the Quebec and St. John Construction Company, was the next witness. He gave considerable evidence regarding the bookkeeping methods of the company and stated that, so far as he knew, no plans had been prepared, nor work done, to carry the road past Anderson. He had no knowledge of the books of the St. John and Quebec railway company.

### Some Curious Bookkeeping.

Some curious bookkeeping was again in evidence and occasionally took part in the debates. Mr. Hoban indicated an entry in the books of the Quebec and St. John Construction Company of a payment to F. J. Lismann and company, which, he said, had really been paid by the St. John and Quebec railway company. In reply to Mr. Carvell, he stated that this item appeared in the books and in the auditor's report as part of the cost of the road, while in reality the construction company had not paid it.

The witness told of a payment of \$50 to J. B. M. Baxter, K.C., as a legal retainer, which had been returned to the company by a deposit made in the bank. The check was cashed on January 11 and the deposit returning the amount, as shown by the bank book, had been made on March 25. He understood the money had been a check and voucher for a payment of \$221 to Mr. Baxter for legal services, which had been paid by the bank on February 7, 1914. Witness identified a number of vouchers for payments made made to Hon. H. F. McLeod for "professional services," amounting to \$1,061.32.

One of the payments which excited the curiosity of the examining counsel was a matter of \$1,000, which the voucher explained simply as "advances" above the signature of A. R. Gould. The accountant explained that the only value received for this sum was 10 shares of stock of the Fredericton "freighter." The stock at one time had been attached to the voucher, but was removed before the investigation had an opportunity to see it.

**Army Worm Busy.**  
Ottawa, July 23.—The army worm pest has broken out at Shawville, Pontiac county, and at several different points in the vicinity of the capital. The pest was first discovered Tuesday afternoon and has already done great damage to the crops. Wheat, barley and oats have all suffered heavily from the scourge.

## Billiousness

When the liver refuses to work there is no remedy like the combination of cascara, senna and other ingredients in **Parmelee's Vegetable Pills**. They help to the digestive organs, and they drive out the undigested food.

VEGETABLE  
Pills**

## EX-PREMIER AGAIN A CENTRAL FIGURE IN FAMOUS ASSIZE

Uproar Caused by Disputations  
With M. Chenu, Counsel  
for Prosecution.

### WRITER SAYS CAILLAUX THREATENED TO SHOOT

Cheers, Mingled With a Few  
Hisses, Greet Minister as  
He Leaves Court.

Paris, July 23.—The ex-premier, Joseph Caillaux, was again the central figure yesterday in the proceedings in the court of assize where his wife, Mme. Henriette Caillaux, is on trial for the killing of Gaston Calmette, editor of the Figaro. The court room was crowded in the expectation of sensational revelations arising from M. Labor's closing ultimatum of last night, when he declared he would refuse to plead unless a full statement was made by the government regarding documents which it was alleged, were important enough to crush Caillaux.

Twice during the session yesterday there were exciting scenes. On the first occasion M. Chenu, counsel for the Calmette family, having declared that it did not become M. Caillaux to come there and endeavor to soil the grave which his wife had made, the ex-premier sprang forward and exclaimed: "Since I must take notice of what this lawyer has said, I will ask him if he will personal responsibility for his words."

When the uproar which this utterance occasioned had subsided, M. Chenu replied:

"I take the entire responsibility. You cannot mean me here."  
M. Caillaux did not interpose further in the proceedings until August Avril, political editor of the Figaro, in his disposition declared that early in November, 1913, M. Caillaux had stopped him in the lobby of the chamber and asked how much longer Calmette was going to continue his campaign, effusive an evasive answer, and M. Caillaux then said to him: "You know I am a crack shot. I go every day to the shooting gallery and get a bull's eye every time."

The ex-premier immediately jumped up and demanded to be confronted with the witness. The two stood face to face at the bar. M. Caillaux affirmed that he had no recollection of ever saying such a thing. M. Avril maintained with equal confidence the exactness of his testimony. Finally the two men withdrew and the matter resolved itself into a question of reliability.

As M. Caillaux left the court at the close of the hearing, many hands were outstretched to him. A small crowd assembled outside the main gates of the palace of justice to see M. Caillaux depart. They gave him a rousing cheer, mingled with a few hisses. Witnesses followed each other in rapid succession. The distinguished scientist, Paul Painlevé, declared that he had been told by the banker, Gaston Dreyfus, that the Figaro was going to publish a number of private letters.

One of the last witnesses was Adel Bernadot of the staff of the Figaro, who produced a letter in which M. Calmette asked him to express deep regret to Mme. Gueydan (Caillaux's first wife) that he had been forced to use her letter.

Paris, July 23.—Judge Louis Alloué's court, where Madame Caillaux, wife of the former premier, is undergoing trial for the murder of Gaston Calmette, editor of the Figaro, was crowded as ever when the fourth session started today. The many had come to see Joseph Caillaux confronted with former Premier Louis Barthou, who had been subpoenaed as a witness. The testimony was to conclude today with the evidence of M. Barthou and Mme. Berthe Gueydan, the first wife of M. Caillaux.

The arguments of Procurator General Julien Herbaux for the prosecution, and of Fernan Labori, counsel for the defence would, it was announced, probably be made late in the day.

Mme. Caillaux took her place in the prisoner's enclosure punctually at noon.

Ten minutes afterwards the red robed judges filed in.

Joseph Caillaux and his friend, Pascal Cécaldi, had visited the prisoner before the hearing began. They found that the long strain was beginning to tell on her and that she felt exhausted, but she showed determination to face her ordeal with calmness.

### BEVERLY NOMINATIONS TUESDAY; ELECTIONS ARE ONE WEEK LATER

Nominations of candidates for the position of mayor and six aldermen for the new town of Beverly will be held next Tuesday at the municipal hall, Beverly. The elections will take place one week later. All who wish to vote should see that they are on the list, which includes all residents.

**Bank Clerk Drowned.**  
Niagara Falls, Ont., July 23.—C. M. Wilkinson, aged 19, son of Lady Wilkinson, Hawhurst, Kent, England, was drowned in the river here yesterday. The body was recovered and the pulmotor was used for an hour without success. Wilkinson was "kicker-upper in the Imperial Bank here."

**Dr. Abbott Resigns.**  
Hamilton, Ont., July 23.—Rev. Almont Abbott, rector of Christ Church cathedral here, and dean of Niagara diocese, has resigned to accept the deanery of the cathedral at Cleveland, succeeding Rev. Frank Dumoulin. Dean Abbott before coming to Hamilton was curate of St. James Cathedral at Montreal.

# ANNOUNCEMENT

W. S. ROBERTSON, Sheriff,  
Edmonton, Alta.  
THOS. THIRD, Bailiff,  
Sheriff's Office, May 9th, 1914.

## CHALMERS OPPOSES LATEST INSPECTOR POSITION CREATED

Holds to Opinion That Inspec-  
tor at Large for Commis-  
sioners is Unnecessary.

### WILL MAKE MOTION FOR RECONSIDERATION

Deputy Richardson Recom-  
mends Letting of Printing  
Contract at Home.

The action of the board of city com-  
missioners last Tuesday, in creating  
the position of inspector for the com-  
missioners, with A. J. McLean as in-  
spector, after August 1, did not meet  
with the approval of Commissioner  
John Chalmers, and at the meeting  
yesterday afternoon the latter served  
notice that the meeting of the com-  
missioners to be held one month from  
August 1, he would introduce a motion  
that the necessity of maintaining the  
position of inspector for commissioners,  
just created, be reconsidered, and that  
if the position is then abolished the in-  
sufficient be notified that the duties will  
automatically be terminated.

The bond of D. McGarry and com-  
pany in the sum of \$40,000, with the  
Western Canada Accident and Guar-  
antee company as sureties, for the  
faithful performance of contract in con-  
struction of the trunk sewer on Spruce,  
Fox and First streets, was accepted.

A communication was received from  
City Engineer Latour concerning the  
paving of the gap on Athabasca ave-  
nue at the crossing of the Canadian  
Northern industrial spur, calling at-  
tention of the commissioners to the  
danger involved in allowing traffic to  
the existing pole lines. It was sug-  
gested that possibly they might be dis-  
posed with and the wires put under  
ground. The matter was referred to  
Commissioner Chalmers.

Referring to tenders for printing the  
voters' list, C. A. Richardson submitted  
a report in which he stated that he  
had made inquiries and had reached  
the conclusion that it would not be  
advantageous to give the contract to an  
outsider either as delays might occur  
which might be dangerous. He stated  
that if nothing was to be submitted  
for the ratemakers to vote, upon, on  
Monday from August 20, it would be  
possible to have the printing done out-  
side of Edmonton, but that there are  
several questions which may come up  
at an early date, among them the as-  
sumption of the street paving now be-  
ing done by the street railway depart-  
ment, annual charges for which should  
be included in this year's tax levy if the  
change is approved.

### NEW CASH REGISTER HAS BEEN INSTALLED IN WATER DEPARTMENT

Facilitating the transaction of busi-  
ness to an appreciable degree, there  
has been installed in the office of the  
waterworks department in the city  
hall a cash register which, as re-  
marked by one of the attaches, almost  
does away with brains. It is used in  
recording all monies received auto-  
matically completing the receipt.  
It provides for the segregation of  
accounts, recording the amounts re-  
ceived in the various funds. In this  
portion of the register a lever is used to  
connect the account for meters A and  
B, flat rates A and B, special account  
and miscellaneous and discounts. Two  
cash drawers are provided, one for the  
use of the chief cashier and the other  
for the deputy, one always remaining  
automatically locked while the other is  
in use.

There are two counters, one known  
as the clerk's counter, which is opened  
at the close of each day, showing the  
total receipts for the day and the other  
the counter which is only accessible to  
the superintendent, and shows total for  
any given period. The register also  
shows the amount received for each  
account for any given period, the  
total number of transactions, and the  
total number of customers doing busi-  
ness with the office during the month.  
On the right of the machine the sales  
slip is carried on a roll, recording  
every transaction and showing the  
fund and giving the consecutive num-  
ber of the payer.

Simultaneously with the opening of  
the cash drawer the machine prints on  
the face of the receipt the amount paid  
and on the back the discount is re-  
corded.

The machine is operated by electric-  
ity and is completely automatic in all  
of its work. It greatly facilitates the  
handling of the business of the de-  
partment and at a glance the various  
transactions of the day or for a given  
period may be ascertained. It super-  
seded the old method of writing re-  
ceipts in duplicate and at the close of  
the day saves the adding up of cash  
received and segregation into funds.

This is the first cash register of the  
kind in operation in the city and  
Chief Cashier James H. Nurey is  
greatly pleased with it.

### RAILWAY CONTRACTOR GOES NORTH BY NEW ROAD FOR INSPECTION

J. D. McArthur, contractor for the  
Edmonton, Dunvegan and British Col-  
umbia railway and the Alberta and  
Great Waterways railway, both now  
under construction from Edmonton to  
the north country, arrived here last  
night at 8:45 via the E. D. and B. C.  
train, leaving for the north country  
this morning via the E. D. and B. C.  
train for Peace River Crossing, where a  
and E. D. and B. C. subsidiary, across  
that river and beyond through the  
fertile stretches north and west of it  
to Fortman, where it will connect with  
the main line of the E. D. and B. C.

## JOHNSTONE WALKER'S FRIDAY BARGAIN NEWS

ALL COMPETITIONS WELL ADVANCED  
IN BISLEY SHOOT: ALL LATE NEWS

First Stage for King's Prize Has Been Shot—Sergeant McInnes of Edmonton Well Up in All His Scores

Bisley Camp, July 23.—The first stage of the King's prize, consisting of seven shots each at 200, 500 and 600 yards, was shot today, but the weather conditions were not favorable. A late corporal of the King Edward Horse, also enters the second stage with 97. At this stage last year the Canadian team had Staff Sergeant Hawkins and Sergeant Steele with a

able to give anything but favorable reports to good scores, even the highest aggregate at the three ranges was only 102, or two shot of Sergeant Ommundsen's total of last year. It was Recryst Janssen of Australia, who carried off the bronze medal for the highest aggregate at the three ranges with 102. The winner is a New South Wales farmer, but not a member of the official Australian team. Sergeant Ommundsen, Fourth Royal Scots Regiment, was first, winning 100, followed by Corporal Blunden of the Donkey Chute cup after a tie shoot-off and late London Rifle, was second and won \$25.

As a result of the shoot-off for the Alexandra, in which the men were tied for the place, McArthur, Australian, was first, winning 98, followed by Cross Red, winning 95 and Ommundsen, London University, third, winning 95.

The certain Canadians who stood in the second stage are as follows: Sergeant Trainor of Toronto winning in 1911, and Captain Campbell, Eighth Arzyle, in 1916. Sergt. Omundsen, however, finally just managed to squeeze into the first place in the second year, while the private being 35, while all scores under 34 are out of the next stage. Canada

The last stage, Staff Sergeant Laman, Halifax, was the only one to finish the 100-yard sprint, having to show the other three runners for occupation of the bottom places among the three hundred. Last year Canada had twelve men in the second stage, and eleven in 1912. Major Howie, and agent general for Nova Scotia, against 1,000 yards.

**COLLIES DEFEAT  
SWIFTS 4 TO 1  
ON DIAMOND PARK**

The Collies had evening grabbed off another game in the senior football league at the expense of Swifts, the

**OLD COUNTRY  
CRICKET**

London, July 23.—Knox triumphed

There being 4 to 1, this win, along with the victory last Saturday night over the Sons of England, puts the Swif's in a strong position for the championship, which has been their every year but 1911 since the beginning of the soccer league in Edmonton.

The Swift's only goal was scored 10 minutes after play began from a penalty kick by Moffat, that Parker could not get to before the referee blew the whistle. Four minutes later the referee called for another award from the

The teams lined up as follows:  
 Callies—Farrier; Kinsman and Hunter; McPherson, Dickie and Cowan; Collier, McLuckie, Tweedale, Spence and Davidson.  
 Swifts—Dunn; Bowater and Moffat; Glesop, Flindlay and McCurdy; Cuff, Grieve, Warner, Biggs and Marsden.  
 Referee—Buckley.

A black and white illustration showing the lower portion of a ship's hull. Several circular portholes with cross-hatched patterns are visible along the side. Below the hull, a bird is shown in flight over stylized, choppy waves. The illustration is framed by a decorative border on the left and top.

# Discoverer of America

Who can truthfully say it has injured them in Prohibitory Laws, and their vote is registered as abstentions have been drinkers of the honestly brewed great brand **BUDWEISER** exceed the

**Bay Co.**  
Edmonton

THE FIRST WHITE MEN to tread American soil were Leif Ericsson and his sea-dashed Viking crew. This was nearly a thousand years ago, when the Scandinavian Vikings ruled the seas and held the secrets of navigation. The history of the fair-haired, liberty-loving sons and daughters of Sweden, Norway and Denmark is rich in song and story. We have millions of these splendid folk in our own land, and wherever the standard of Liberty and Human Progress has been raised they are found in the front rank, bravely fighting for the Right. Better citizens or greater lovers of Personal Liberty are unknown. For centuries our full-blooded Scandinavian brothers have been moderate users of Barley-Malt brews. Who can truthfully say it has injured them in any way? It is the ancient heritage of these people to revolt at Prohibitory Laws, and their vote is registered almost to a man against such legislation. For 57 years Scandinavians have been drinkers of the honestly-brewed beers of Anheuser-Busch. They have helped to make their great brand **BUDWEISER** exceed the sales of any other beer by millions of bottles. Seven thousand, five hundred men, all in all, are daily required to keep pace with the natural public demand for Budweiser.

Bonded only at the home plant.
